Made by hand, eye & heart

Vast Interior's exhilarating 2010 range is a proud interpretation of traditional furniture design, drawing on the heritage of India. Designs that remind us of another time, another age, another place come together in modern times for contemporary living and create a haven for the home.

From frescoed walls to fantastic fabrics, princely palaces and exotic gardens, graceful screens to bejewelled etched ornaments, combined with traditional craftsmanship made from real materials.

This heritage has inspired Vast Interior's signature furniture designs over the last decade and now complimented by the latest 100% Vast original limited edition Winter homewares collection.

Liffey Range . . .
