INTRODUCTION: COMPANY BRIEF

Australia's leading brand for quality synthetic wicker commercial and residential outdoor furniture presents a new collection for 2007 – 2008.

Classique's own synthetic wicker (known as Durawick™) has an expanded colour selection, as well as a new selection of cushion fabrics being phased in. Luxury residential homeowners and commercial specifiers alike, are choosing this emerging global brand more than ever before.

Classique Leisure backs its premium domestic and commercial warranties, by having a quality inspection team at the factory and is the first outdoor furniture brand to test polyethylene synthetic wicker by the independent AUSTRALIAN WOOL TESTING AUTHORITY (See Page 3).

The Classique Leisure Collection for 2008, sets new benchmarks with design innovation and functional convenience for indoor-outdoor entertaining. New table top materials such as durable ceramic tiles and the lavish style of lightweight "honeycomb" tile granite tops form part of its unique selection.

Classique Leisure has rapidly grown with succeeding in the contract sector over recent years, by developing a strong commercial profile for the placement of designs in outstanding locations: such as 5-star hotel resorts, serviced apartments, golf clubs, memorial / veterans clubs, football clubs, restaurants, cafes and aged care / retirement precincts. With 34 years of experience supplying this market, Classique firmly believes that the general consumer will have more confidence in the durability of this brand for their home, because the designs have been proven to withstand the test of time in the high-traffic contract environment.

With the generous guidance and services from Austrade, TradEX and the NSW Department of Regional Development, Classique Leisure has secured a reputable profile for exporting items specified for contract fit-outs at international destinations, as a proud representative of the Australian Trade Mission.

The Gulf Countries / Middle East now have an outstanding Classique Leisure distributor with the appointment of Global Furniture Solutions (Dubai) LLC. Based at the hub of this booming region, GFS have tremendous experience for the servicing of outdoor and

indoor furniture brands. Coordinating the efficient supply of contract orders with vast requirements, have given GFS an esteemed reputation throughout the Gulf and the greater Middle East, from their office based in Dubai.

Classique Leisure chooses to register its designs to further the evolution of the Collection's diversity and prevent inferior quality copies from being introduced. Brands who choose to copy are usually those who cannot guarantee the durability of their materials. Design concepts are registered from Australia under, 'The Designs Act' (2003).

MISSION STATEMENT

Classique Leisure endeavours to always provide its clients with:

- **An unparalleled standard of product quality**
- **Innovative design concepts**
- **First-class service**

FEATURES & BENEFITS

MATERIALS OF EXCEPTIONAL QUALITY

DURAWICK™: SYNTHETIC WICKER made by Classique Leisure

- Each colour of Durawick™ is tested independently by the Australian Wool Testing Authority (AWTA), to verify its durability under the harsh weathering conditions and high U-V radiation experienced in the Australian and Middle East climates.
- Results from the AWTA conclude that Durawick™ scored a 5 out of 5 for each colour, which is the best possible result for a testing procedure that some one used to test the paint and plastic parts on automobiles.
- Commercial (2 year) and Residential (3 year) Warranty covers the Durawick™ strands against staining, splitting, cracking or unravelling under normal usage conditions.
- Swiss company CIBA, creates the U-V stabilisers "Chemisorb" and "Tinovin" which get mixed into every production run of Durawick™.
- Available in a wide variety of potential colours for special quantity project orders, where Durawick™ can imitate the look and feel of cane, rattan and even leather, WITHOUT the risk of splintering or deterioration caused by harmful weathering effects.

ALUMINIUM FRAMES

- Powder-coated and polished aluminium frames are both covered by a minimum 3-Year Residential and 2-Year Commercial Warranty which ensures a lightweight yet strong frame structure that lasts in high-traffic areas. Welding and the structural integrity of the framework are all covered by this blanket warranty.
- Rust-resistant aluminium is a lightweight metal, that can be reinforced or made stronger by the type of extrusion which is chosen during the development of the design.

GRANITE & TRAVERTINE

- One of the prestige features of the Classique Leisure Collection is the ability to mix genuine granite and travertine with the various colours of Durawick™.
- Elegant, easy to clean and durable genuine stone slabs of granite and travertine are being used for a third season with coffee tables, bar tables, side tables and 4-seater tables.
- For larger dining tables in the Boutique Range, which seats 8, 10 and 12 people, Classique Leisure introduces HONEYCOMB table tops in 2007. These table tops reduce the weight of a regular granite or travertine table by as much as 70%. Thin square tiles are cut and laid onto a strong, cellular aluminium plate, to give the appearance of a single slab of granite or travertine, minus the potential weight problems normally associated with these stone materials.
- Granite and travertine have a high-prestige design value, that is versatile for both indoor and outdoor entertaining.

CERAMIC TILE

- Another table-top surface introduced in 2007 for the Classique Leisure Collection is the highly durable and versatile CERAMIC tile in the Boutique Range. Completely stain-resistant, heat-resistant, U-V resistant and also easy to clean, CERAMIC will withstand the limits of all commercial applications.
- Each tile is fitted securely into the very strong and thick-gauge powdercoated aluminium frame with a rubber seal that firmly holds the tile in place.
- A unique table edge with strong, easy-to-assemble square-post legs are an outstanding design feature. Contemporary and elegant enough for both indoor and outdoor usage.

FOR ALL MATERIALS USED IN THE CLASSIQUE LEISURE COLLECTION, AND FOR ADDITIONAL WARRANTY, CARE & MAINTENANCE PROCEDURES, REFER TO THE NEW 2008 SWING-TAG OR THE CLASSIQUE LEISURE WEBSITE.

www.classique.net.au

It is the responsibility of the end-user or consumer to clean and maintain the product which enables it to maintain maximum durability and preserve the product's original look.

5-star hotels, upmarket
restaurants and 5-star
serviced apartments.

RET

aged care, retirement
precincts, healthcare.

CLU

medium to high-end sports
clubs, memorial / veterans
clubs, community centres.

COMMERCIAL SECTOR

AN EMERGING BRAND FOR PRESTIGE LOCATIONS:

Since celebrating its 30th Year in 2004, Classique Leisure began participating in some of Australia's finest trade events for furniture, in an effort to rejuvenate its position as a premium outdoor furniture supplier in the contract sector. Classique Leisure felt that it was time to position its diverse collection of products towards larger markets that were in dire need of more creative design and reliable quality standards for outdoor entertainment.

Through 2006 – 2007, as Australia's new Anti-Smoking Laws spread nation-wide, Classique Leisure has been called upon regularly to fit-out some of the best hotels, clubs, serviced apartments and aged care venues in each state. Recently in Clubs Life Magazine, North Sydney Leagues Club was credited as having "the perfect outdoor room", as part of its creation of The Fusion Lounge which featured both dining and lounge designs from Classique Leisure.

UPCOMING TRADE EVENTS
