FURNITURE

This catalogue showcases Zuku Furniture's range of Spanish Colonial furniture imported from South America. The style reflects a unique combination of Spanish and indigenous elements prominent in the early Spanish colonies of North and South America.

The furniture is made from reclaimed South American hardwood, mostly sourced from old buildings and can range in age from 90 to 300 years.

Each piece is unique and individually hand crafted by artisans. Many of the pieces incorporate oxidised wrought iron in the design. The ironwork is also hand-made by artisans, well regarded for their artistic abilities.

The furniture is extremely hard wearing and durable, the joinery is finished in the old style.
